

europantalla

Las luminarias son fuentes transformadoras de espacios, sin importar su tipología o dimensiones, y capaces de proporcionar bienestar a su usuario. En este catálogo podrás encontrar la luminaria que dará luz a tu espacio y transformará tu bienestar.

europantalla

después de haber iluminado sus pantallas de chapa de madera y haberlas lanzado al mercado con la marca **Icono**, presenta nuevas colecciones de luminarias en textiles de calidad, técnicos, actuales, románticos ... donde la protagonista indiscutible es la pantalla.

Como fabricantes de pantallas, nuestro reto ha sido iluminarlas con el mismo empeño y cariño que siempre les hemos dedicado.

Ante la imposibilidad de catalogar todo lo que podemos elaborar, hemos apostado por una serie de colecciones, reflejo de lo que somos capaces de crear.

Queremos destacar de Europantalla su condición de fabricante, lo que le otorga gran flexibilidad para hacer contract, proyectos y luminarias especiales, basadas principalmente en la pantalla.

Light fixtures have the ability to transform spaces, no matter their type or size, and they provide the user with comfort. In this catalogue you will find the light fixture that fits you best. It will light up your space and transform your well-being.

After illuminating its wood veneer lampshades and releasing them onto the market under the brand name of **Icono**, now **europantalla** presents its new light fixture collections with high-quality, technical, modern and romantic fabrics, in which the lampshade plays the leading role.

As lampshades manufacturers, our challenge has been to illuminate these new luminaires with the same effort, care and affection that we have always devoted to them.

Facing the impossibility of cataloguing all the luminaires we can make, we have gone for a series of collections, which are a reflection of what we can create.

We would like to highlight that Europantalla is a lamp manufacturer, which means they have great flexibility to do contract, projects and special light fixtures, mainly focused on the lampshade.

Surge como resultado de dos formas geométricas opuestas que tienen una línea de encuentro, llegando a alcanzar una pureza visual como la joya que da su nombre: el diamante.

It emerges as a result of two opposed geometric shapes which meet in a join, achieving the visual purity of the jewell which gives the name to this collection: the diamond.

Esta ha sido nuestra elección en formas y colores, pero hay muchos otros modelos de pantallas y combinaciones de materiales que te podemos ofrecer. Si tú puedes imaginarla, casi seguro que nosotros podremos crearla.

"Colecciones con Alma"

Una colección con Alma siempre tiene algo más, algo difícil de explicar, difícil de identificar pero que se percibe, se respira, se siente. Hacer algo con el Alma es hacerlo con lo mejor que uno tiene. Estas colecciones han sido creadas con lo mejor de cada una de las personas que componen nuestro equipo.

This has been our choice of shapes and colours, but there are many other lampshade models and material combinations that we can offer. If you can imagine it, we most likely can create it.

"Collections with Soul"

A collection with Soul always has something else, something difficult to explain, difficult to identify. But you can sense it, breath it, feel it. Putting your heart and soul into something means doing something with enthusiasm and giving one's best. These collections have been created with the best of every single person of our team.
